

Quick Start guide to Zoom for new users using iOS Devices.

You don't need any fancy equipment to use Zoom, just a phone, tablet or computer that connects to the internet.

Before joining a Zoom meeting on a computer or mobile device, you can download the Zoom app from <https://zoom.us/download> - just scroll down the page until you find the relevant link (eg iOS, android, windows, mac)

Otherwise, you will be prompted to download and install Zoom when you click a join link.

Each meeting has a unique 9, 10, or 11-digit number called a [meeting ID](#) that will be required to join a Zoom meeting

1. Open the Zoom mobile app. If you have not downloaded the Zoom mobile app yet, you can download it from the App Store.
2. Join a meeting using one of these methods:
 - Tap **Join a Meeting** if you want to join without signing in.
 - Sign in to Zoom then tap **Join**.

Join

3. Enter the [meeting ID](#) number and your display name.
 - If you're signed in, change your name if you don't want your [default name](#) to appear.
 - If you're not signed in, enter a display name.
4. Select if you would like to connect audio and/or video and select **Join**.
